The WEEKLY TRIBUNE, a very large paper, for the Country, is published every Saturday morning, at the ow price of \$2 per annum, in advance.

## THE TRIBUNE.

## FIFTEEN DAYS LATER FROM EUROPE.

Arrival of the Calcdonia. The royal mail steamship Caledonia, Captain Lott, arrived at Boston on Friday merning, at a quarter past 5 o'clock, having left Liverpool on the 19th ult., at 5 P. M., arrived at Halifax 31st. and left same day at 121 P. M .- thus making the passage from Liverpool to Boston in 13 days and

The Caledonia brought 80 passengers to Boson, having left Liverpool with 77, landing 10 at Halifax, and taking 13 on board at that port for

The Arcadia arrived at Liverpool on the 13th. n 91 days from Halifax, having left Boston on

the 1st. The most important intelligence by this arrival is that of serious and extensive riots in the manufacpuring and mining districts of England and Scotland. Their exciting cause was a farther reduction of sages by some large employers in Manchester and its vicinity. This seems to have been the drop which made the cup overflow, and the long restrained discontent of the people burst forth.

After numerous meetings at Staylebridge, Ashton, and Mettram, there was a general turn-out of the spinners and weavers at the former place, in compliance with the demands of an immense mob. They compelled colliers, calico-printers, ind other trades to join them, and went to Ducknfield, Ashton, Oldham, Hyde, Fairfield, Droylsien, Denton, and other surrounding towns, steping mills in all these places. At Manchester pey were frequently dispersed by the military, but re-assembled and succeeded in stopping all the works of Manchester and Salford. Thence they extended their incursions to Stockport, Macclesfeld, Glossop, Tintwistle, Hoywood, Middleton, Oldham, Rochdale, Bury, Belton, Chorley, Blackburn, Clitheroe, Burnley, Breston, Wigan and all the surrounding towns where the population was great or manufactories existed, causing one universal and wide-spread insurrection, whilst a similar course was pursued by the colliers in the Stafferdshire Potteries and at Glasgew.

Since Tuesday, the 9th instant, Manchester has been in a complete state of disorganization, all business being at a stand still, and the military being constantly engaged in dispersing riotous asemblages. There has, however, been, comparstrely speaking, very little destruction of property, and not much plunder, though many of the mills have been attacked and the shop-keepers have ben compelled to give up their stocks of provi-

sies. At Halifax, Blackburn and Preston, the mitary have fired upon the mobs, and several lives have been lost. The mill-owners having been compelled to close their establishments, have determined not to re-open them until quiet shall have been perfectly restored.

There does not appear to have been any actual reak in London, but threatening symptoms were apparent and much alarm existed. The ping. Dike of Wellington has had an interview with the Police Magistrates and arrangements were ande to put down any riots in the metropolis. Irains on the London and Birmingham Railway vere ordered to be in readiness for any emergency. Several regiments were ordered to hold themselves

Messrs. Harnden & Co. have a letter from Londonstating that "the house of Sir Robert Pecl, at Tanworth, was surrounded on the 13th and burnt. Imops were sent from Birmingham to quell the

The bierning Post of the 19th says, some of the fectories at Manchester, and the whole of those at Preston, had resumed work, under the protection dthe civil and military force. At Blackburn most of the mills continue working, and the town wasquiet, after an examination by the magistrates of about ninety persons, and the committal of a great number of them for trial.

The magistrates at Burslem, in Staffordshire, had succeeded in re-establishing their authority; and in the pottery district a great number of the rices had been apprehended and safely conveyed to Stafford jail.

Birmingham remained free from riot, and Covmty also, although the latter had been invaded by a numerous body of refractory colliers. Notwithstanding the unsettled state of trade,

consequent upon the disturbances, the middling descriptions of cotton had advanced ad. since our previous advices, and there was a tendency to improvement in the prices of the other grades.

The prospects for the harvest were still most favorable. The crop would be an abundant one, and from the favorable state of the weather will most probably be secured in excellent condition. Is PARLIAMENT, Aug. 4 .- In the House of Lords the Earl of Radnor moved the second reading of his bill to repeal the duties on fereign come Rejected without a division. The bill autherising corn to be taken out of bond for grinding was read a third time and passed. Aug. 5 .- In the Commons the Lords' amendment to the mines and collieries bill was agreed to, Lord Ashley assenting, but reluctantly. Aug. 8 .- In the Comboas the Newfoundland bill was passed and sent In the other house. Aug. 11.—In the House of Lords the Newfoundland bill was passed, after counsel had been heard at the bar against it. It does away almost wholly with popular representation. Aug. 11 .- Parliament was prorogued by

the Queen in person, until the 6th of October. Mr. Walter, of the London Times, has been elected for Nottingham. Mr. Sturge was his op-

3d to 60d, for sale by MITCHELL & WITHERELL, 94 John-st-

tains an abstract of 'The case of the Booms '-a remarkable instance of the fallibility of human testimeny, occurring in Vermont in 1319. Stephen and Jesse Boom were convicted of the murder of

Russell Colvin at Manchester in 1319 upon their own several and circumstantial confessions of the crime charged on them, supported by much extraneous evidence; and yet they proved at last entirely innocent, and the man supposed to be murdered alive and unburt. The number has beside a great number of digests of important cases, mostly recent decisions in Bankruptcy. A capital though

THUNT'S MERCHANTS' MAGAZINE for September contains able statistical and historical accounts of The Trade of Russia and of France; papers on the Warehousing System and the Progress case of his death, resignation, or disability, the Griffin (La Salle's ship) on Lake Erie; Biegraphy of Sir William Pepperell; a Glimpse of Bankruptcv. (story); a Manuel of Gold and Silver; an Essay on Preferred Creditors, beside many Statistical Tables of Imports, Exports, &c.

DEVEREUX .- The Harpers have published Bulwer's "Devereux" as the 3d No. of their "Library of Select Novels." If they can afford to print, bind, illustrate, and sell a work, prepared in the manner this is, for the sum of twenty-five cents, tenced on Friday to one year's imprisonment and the public certainly can have no objection. It must meet with an extensive sule.

> THE RADIANT, a Journal of Humor and Wit; Edited by L. D. CHAPIN, has just made its bow. It is a Monthly Magazine of 48 large and close pages, illustrated by many humorous designs, and sold at 25 cents a number. It is published

FRENCH STEAMERS .- I see that the French Commissioners have some idea of making Boston the place of their line of steamers instead of New-York, and the reason urged is that they get wharfage offered for nothing. Now it is true they charge no wharfage on the vessels, but the goods pay wharfage; a box of tin pays three cents, and from that to five cents for shoe boxes, barrels four cents. The Boston Packets pay here from fifty to seventyfive days' wharfage and nothing for goods; it takes about eight days to deliver and take in a cargo. In Boston the same vessels will pay, staying the same time, wharfage for goods from seventy-five to one hundred dollars. It is known that our wharves are a large expense to the City, and the charges so light in order to give commerce the benefit. Now if we charged here as much as they do in Boston, the revenue in three years would pay the whole debt of Croton Water. Other advantages as to freights are much in favor of New-York, and should Cunard's line send every other steamer to New-York they would soon see the difference in passengers and freight. I wish to give both sides of the

ENGLISH NEWSPAPERS, MAGA-ZINES, BOOKS AND PRINTS.—Transatlantic

Newspaper Office, Liverpool.

CHARLES WILLMER, of Liverpool, supplies the American public with BRITISH NEWSPAPERS, MAGAZINES, BOOKS, and PRINTS, on the most advantageous terms. He forwards the very latest editions of all the London and Proviscial Newspapers, Shipping Lists, Price Currents, &c. &c., as well as those from all parts of the European Comment, by the Steamers and Liners from Liverpool, London and Bristol, and the Magazines, Books, and Prints, as soon as published.

His charge for a London Daily Paper is £7 3s; or a week-

don and Bristol, and the Magazines, Books, and Prints, as soon as published.

His charge for a London Daily Paper is £7 3s; or a weekly one published at Fivepence, £1 3s. Iod; or Sixpence, £1 3s. 2d per annum; all the Magazines, Books, or Prints he supplies at the same prices as they are charged by the publishers in London.

All orders should, to prevent disappointment, be addressed "Gharles" in full, and none will be attended to unless accompanied by a remittance or reference for payment, three months in advance, on some Liverpool or London house.

P. S.—News Letters, comprising an epitome of every thing interesting to American or Canadian readers, furnished on reasonable terms.

THOMAS JONES, Accountant, respectfully announces that he is prepared for the reception of students, as heretofore, who will be instructed in Book Keeping. Penmanship and Arithmetic, during the Day or Evening. Lessons may be had entirely in private, and such as prefer it may bring their own accounts to be arranged. The sh riest and best methods will be explained and a thorough practical knowledge of the subject acquired.

For terms and prospectus analy at the Rooms, 123 Broad-

and a thorough practical knowledge of the subject acquired.

For terms and prospectors apply at the Rooms, 193 Broadway, where they may be had from the author.

JONE'S Principles and Practice of Book-keeping, 8vo.

—Price 12 shillings. This work is already adopted as a text book in many of the first Academic institutions in this country, and is the only American work on the subject republished in England, where it is now extensively introduced. See Review Hunt's Merchants' Magazine. Also, Journal Am. Institute, containing the report of a Special Committee appointed on the subject.

Reference is also made (if any farther evidence is required) to Mr. James Brown, of the house of Brown, Brothers & Co., who is acquainted with the above particulars, is whose employ the above named Thomas Turner was for a number of years.

The proprietors also submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of this medicine:

NEW-YORK, MONDAY MORNING, SEPTEMBER 5, 1942. TO THE WORLD!

and behold the fearful amount of suffering and disease that there exists, without a feeling of palnful sympathy arising in our hearts accompanied with the desize of bestowing reliefif we possessed the power? No, no, we cannot; the human heart goes forth to meet its fellow, and extends to him the hand of sympathy, if nothing more. This may mothe, but it will not cure. I'e still freis himself an object that is loathed,—he still feels himself a cripple; the anguish still lingers around his pillow. These at all familiar with the history of diseases cannot help being struck with the rapid in-crease of that peculiar range of diseases arising from an imthe mucus tissue; also of the osseons and glandular system, scrafula, cancerous pleers and obstinate cutaneous eruptions, brief editorial on Mississippi Repudiation is among of their increase is owing to their being hereditary, running through whole families and spreading destruction along their

upon the world; and in offering to the public this new preparation, which has for its object the relief of suffering minimanity, it becomes necessary to state upon what grounds it puts forth its merits and the reasons upon which it founds its superior claims to the attention of the ufflicted, that all who require its use may repose full confidence in its restorative virtues. But let us introduce our reader more particularly to this new preparation, which has already been announced to the public under the name of SANDS'S SAR-

This medicine is the result of years of devotion to laborious chemical experiments in testing various modes of preparation, enabling them to concentrat in the most efficient form all the medicinal value of the tru. Sarsaparilla; and they have at last accomplished this most desirable result by means of an entirely new, ingenious and costly apparatus. The process throughout is governed by strictly chemical laws, so that the essential principles, or the principles on which the restorative virtues of the Sursaparilla depends, are entirely preserved. This is then combined with other arti-cles, selected wholly from the vegetable kingdom, all of which are the most powerful purifiers of the blood, which are then concentrated into a fluid extract that has been found by experience to possess the important power of immediately arresting the progress of disease and restoring the paease arising from an impure state of the blood or habit of the system, such as obstinate cutaneous eruptions, rhenmatism, chronic sore eyes, or diseases arising from an injudicious use of mercury, or imprudences in life, have only to use this preparation, which has all combined that can be useful in the removal of their complaints. Combined with proprietor has reaped the experience of a scientific gentle-man who resided many years in that country which pro-duces the best, in fact the only true, species of Sarsaparilla.

The proprietors, during the many years they have been engaged in preparing it, have tried hundreds of experiments upon the human system, and have had the pleasure of witnessing its happy results in numerous instances; and they were determined not to offer it to the world until they had become thoroughly cenvinced of its efficacy. They have now succeeded in preparing a medicine whose restoraive virtues are without a parallel in the history of medicine, which fact is fully substantiated by the numerous certifi-

This medicine has been prepared for the benefit of all suffering mankind, both rich and poor, and to the indigent poor it will be given without money and without price, by heir bringing a certificate of their need from the Pastor, the Magistrate or the Alderman of their Ward. And now let the testimony of suffering humanity, who are gathering around it thick and fast, and by whose inherent virtues the ame walk, the lepers are cleansed and the afflicted are healed, bear witness of its merits. Let it stand or fall by its own inherent virtues. What it has done once it will do again, and by its use the world will be relieved of a vast amount of suffering and disease.

The proprietors have made arrangements for spreading it through the whole United States. That all may have it within their reach, it is also their intention to introduce it into the hospitals, into the alms-houses, and into all the public institutions, wherever enlightened reason may be inclined to receive it, which have for their object the sufferer's relief. And to the American public the proprietors would say, let that medicine which is destined to bring health and healing on its wings to its thousands and its ten of thousands, resulte your favorable consideration-let all philanthropists sustain an artiel- which has for its object relief to both rich and poor. As long as the medicine produces the desired result for which it is administered - and this has been proved again and again-is it not sufficient to all to administer it in cases where its benign influence may shed relief and happiness around the pillow of suffering and pain?

The following cure, at once so remarkable, so extraordinary as almost to surpass belief, has, in order to place its truth beyond the reach of suspicisn or doubt, been sworn to, this 26th day of August, 1242, before his Honor Robert II. Morris, Mayor of the city of New York.

New, York, Angust 23, 1842.
Gentlemen.—A tale of misery and woe is mine to tell, and as memory ever constant in the task brings back scenes that have past, I shudder at the picture and almost wonder if it is so. For months stretched upon a bed of suffering and a second properties ratio days, with have past, I studder at the petter and anset and is so. For months stretesed upon a bed of suffering and distress, racked by the most exeruciating pain, dumb with agony—the only voice that came from my lips the voice of graning, and my only hope despair. The stretch while others slept in the still hours of night, I have torned my face to the wall and wished to die.

Although I stood on the brink of eternity and the thread of life was nearly severed, yet I still breathed on, the lamp held out to burn; I little thought it would be ever trimmed again, and only haped that death would swallow up the flame. My sickness was first broughton by my imprudently exposing myself to a strong current of air while over-heated, which caused a sudden check of perspiration. My complaint at first seemed light and hardly worth while to call a physician; but I soon began to grow worse, and a physician was called, who prescribed some pills containing a powerful preparation of mercury, to be followed by sarsaparilla root and lignum vitae made into a tea, which I commed using for several months without intermission. Soon af-

rilla root and lignum whe made into a text, which to thinde ed using for several months without intermission. Soos af-ter taking the mercury I began to feel its poisonous influ-ence. My whole glandular system became affected, also the bones, joints and muscles; lumps formed upon the skin nearly as big as an egg accompaned with istense burning heat, which keptswelling until they broke, and discharged matter and blood. These continued to increase until they covered my whole body. But this was only the beginning covered my whole body. Butthis was only the beginning of my afflictions; now commenced those torturing pains termed chronic rhenmatism. Attimes it seemed as if I was termed chronic rheumatism. At times it seemed as if I was stretched upon a rack and all my limbs were being term from each other; at others as if sharp knives were piercing me at every point. The muscles of my legs seemed tied in knots and were as hard as a bone. My distress was now so great that my groans at night disturbed the whole house and also some of the families in the adjacent buildings. I had not slept a night since the early part of December last; the only sleep I obtained was a few hours during the middle of the day pillowed up in a chair, and the eruption had also fearfully increased. My face was completely covered with an extending sore. I had now shrunk to a mere skeleton the day pillowed up in a chair, and the ellipton and associated increased. My face was completely covered with an extending sore. I had now shrunk to a mere skeleton—the skin and flesh were so diseased anound my thighs that the bones nearly protruded, and the physicians pronounced my case beyond the reach of mediciae. On how I wished that I might die. From my long and protracted illoess we had become much re-board to creumstances. A short time since while looking as the papers, I chanced to see your Sarsaparilla advertised, as companied with a certificate from Mr. Burdock, of a most extraordinary cure made by its use. The case in some respects resembled my own, and I found that lingering hope still Gang to life. It seemed like a whisper from heaven. The second day after I commenced taking it I felt the pain mach easier and went to sleep. I had not sleep like this before for months. By the time I had used one bottle, the pain had nearly left, the eruption was also much better. I now felt a strange hope gathering in my breast that I should live; perhaps becured. No; this could not be. I dared out believe it. I sent and got another bottle, continuing to improve rapidly, and still another, and could not be. I dated not believe it. I sent and got another bottle, continuing to impreve rapidly, and still another, and I—I a few days since a miserable, suffering, dying man, was almost well. Two weeks from the day I took the first dose I was out, and walked nearly three miles without even the assistance of a cane. And now, gentlemen—yes, now, I am well! and have testified before my God upon His sacred Word, that all might believe this statement for it is true, true. On how Ismely these cold words describe those fearful nights of agony, those dreadful days of suffering. True Yes, gentlemen, I herald it to the world that all may know what your preparation of Sarsaparilla has done for me. My heart yearns towards those suffering and afflicted like I was, and I only hope this statement will induce others to pursue the same course for relief.

the same course for renes.

Ever gratefully yours,
THOMAS TURNER, 43 Anthony street. City and County of New-York, ss: I hereby certify that on this 26th day of August, 1842, the above named Thomas Tarner appeared before me, in the Mayor's office, and haging been duly sworn, stated that the above statement by him subscribed, was true.

ROBT. H. MORRIS. him subscribed, was true. ROBT. H. above-York.

Mayor of the City of New-York.

I do hereby certify that the above is a correct statement of the case of Thomas Turner, and the effect of your Sarsaparilla upon him; his wife being a member of my congregation I have frequently visited them and know the facts to
be true,

Pastor of the Methodist Episcopal Church, Duane-st.

We, the undersigned, being neighbors of Thomas Turner, do hereby certify that the above is a correct statement of his case and the operation of your Sarsaparilla upon him.

WILLIAM LOZEY, Wine Merchant, JOEL B. PURDY, Grocer, Reference is also made (if any farther evidence is required) to Mr. James Brown, of the house of Brown, Brothers & Co., who is acquainted with the above particulars, in whose employ the above named Thomas Turner was for a number of years.

WHOLE NO. 438. "Messrs. Sands—Gentiemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of rollieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaperilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, ' from the crown of my head to the sole of my foot there was no soundness is my head to the sole of my foot there was no soundness in me.' From the time first mentioned down until the pre-sent, a period of more than ten years, I have saffered all that himan nature was capable of bearing. I have been under the care of the most distinguished physicians, both in this country and in England, visited Bath, Cheltenham, Bristol and Gioncester, tried various specifics, among other a large quantity of Swaim's Panacea, used sulphur baths, As a last resort I was induced to wrap myself in r olutinent, keep myself secluded, shinned by all, myself so shinning. I was induced to believe my case a hope-

New-York City Haspital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself beand cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent near \$3,000 without obtaining but little relief. After using it a short time I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know farther particulars will find me at my residence, No. 27 Warren-street, New-York, where I shall be banny to communicate any thing in relation to the above happy to communicate any thing in relation to the abov ITS OWN WORKS PROCLAIM IT .- Let the following

"NEW-YORK, August 16, 1842. "New-York, August 16, 1842.

"Messrs. Sands: Gentlemen—Owing to you adebt which money cannot pay, I am induced to make a public acknow-leagement of the benefit I have derived from your (to me) invaluable preparation of Sarsaparilla. I was sorely addicted with a terrible scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my ears, running into my head, and extended all over my face, neck, arms, and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to sleep or lay my distress was so great that I was unable to sleep or lay down, and the disease extending into my ears, seriously al-fected my hearing. My face was one continuous sore, from which a discharge of matter and water kept constantly ozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease to grow worse, until I gave up in desport Fortunately for me, I chanced to fall in with a lady ou board. a railroad car while traveling for my health, who informed me that her son was at one time in as had a condition as was, and that by using your Sarsaparilla he was speedily cured. I immediately procured the article and commence ng it, and now, after having used less than six bottles am well and able to attend to my business. I send you this statement as an act of justice, only hoping it may induce the adflicted to make use of the right medicine, and thereby save them much suffering and expense. Those wishing to l-arn further particulars concerning my case will find me at 207 Greenwich street, where it will afford me great pleasure to communicate anything in relation to the above.

I am, with gratitude, yours, &c. AMOS DENMAN. Prepared and sold at wholesule and retail, and for exportation, by A. B. SANDS & CO. Druggists and Chemists Granite Buildings, 273 Broadway, corner of Chambersist, New-York. Sold also by A. B. & D. Sands, 79 Fulton; D. Sands & Co. 77 East Broadway, corner Marketst. Price \$1 per bottle; six bottles for \$5.

RS. HOLTON'S Boarding and Day School for Young Ladies, No. 11 Annay-st au30 2ms R. and MRS. STEVENS' School for Ya. Young Ladies. 173 Thompson st., first door below deceker, will reopen Monday, Sept. 5th. s1 4th MUSIC.-Miss Morse respectfully in-

To forms the ladies of this city and Brooklyn, that she ill give instruction on the Piano Forte, and in Singing, at seven dences of the pupils. Terms to suit the times. Application to be made at 10 City Hall place. TR. and MRS. BAILEY will re-open their Young Ladies' School, 10 Garroll place, Bleeck er-street, on Wednesday, 7th of September. They have a tew vacancies for boarding papils, their limited number being tweive. It will readily be perceived that punctual attendance is necessary for the immediate organization of the classes.

R. A. KYLE, Teacher of the Piano-otty to tender his sincere thanks to his many kind patrons in this city and its environs, at the same time respectfully to inform them that he will be ready to meet his former pu-pils with new accessions, from Monday, the 5th mst. Ap-plication for terms, &c., may be made personally, or by note addressed 41 Forsyth street.

TISS ORAM'S BOARDING AND DAY SCHOOL will be opened on Thursday, 8th September, at No. 66 Hammond street.

Mr. and Mrs. Bleecker, for many years at the head of a popular Female Seminary in Westchester County, associated with Miss Ocan of this City, having taken the extensive Mansion No. 68 Hammond-street, will open a Boarding and Day School for Young Ladies on Thursday, Sept. 8th. The building and grounds, for elegance, convenience and The building and grounds, for elegance, convenience and healthy location, are not surpassed by any similar institu-

tion in the city.

Miss Oram, with assistants, will attend to the instruction of the young ladies, and the domestic department will be under the superintendence of Mrs. Bleecker.

\$24f BRADBURY would respectfully amounce to his papils, patrons and friends generally that he will resume his instruction to classes and private pupils in Singing and the Piano Forte on Monday, Sept. 5tn. To those who wish to economize, he would state that he has adopted a pian by wanch he is enabled to impart therough instruction to pupils upon the Piano Forte at very molerate prices. This is deemed a desideration for these hard times. The plan has been highly successful, and met with the unqualified approphilation of bis patrons.

has been highly successful, and shet with the displantage approbation of his patrons.

Mr. B. will also instruct in Schools and Academies, and large Evening Classes formed for the study and practice of Sacred Music, or the higher order of Glees and Madrigals.

Also, select Day Classes of twelve or more at the residence of any of the pupils, if prepared.

For particulars please call at Mr. B.'s 142 Eldridge-street, see Reington.
